

```
*****;  
*   LESSON 3, PRACTICE 4                                     *;  
*   a) Add a WHERE statement to print only the rows where  *;  
*       ParkName includes Preserve.                        *;  
*   b) Submit the program and verify the generated output. *;  
*       Which codes are used for Preserves?                *;  
*****;
```

```
proc print data=pg1.np_summary;  
  var Type ParkName;  
  *Add a WHERE statement;  
  where ParkName = 'PRE';  
run;
```

```
proc freq data=pg1.np_species;  
  tables Abundance Conservation_Status;  
  where Species_ID like "ZION%" AND Category = 'Bird';  
run;
```

```
proc print data=pg1.np_species;  
  var Species_ID Category Scientific_Name Common_Names;  
run;
```
