

```
1 *****;
2 * Activity 5.05 *;
3 * 1) Create an output table named STORM_COUNT by *;
4 * completing the OUT= option in the TABLES *;
5 * statement. *;
6 * 2) Run the program. Which data values are included *;
7 * in the output table? Which statistics are *;
8 * included? *;
9 * 3) Put StartDate and BasinName in separate TABLES *;
10 * statements. Add the OUT= option in each *;
11 * statement, and name the tables MONTH_COUNT and *;
12 * BASIN_COUNT. *;
13 * 4) Run the program and examine the two tables. Which *;
14 * month has the highest number of storms? *;
15 *****;
